fikret@cetci.com

CETCI Service Training Course

2 Days: June 18 & 19, 2018
Day 1 & 2 | 8:30am to 3:30pm

Course Content

Hands-on course instruction to train and test qualified technicians and contractors with electrical servicing experience to install, service and troubleshoot CETCI gas detection equipment. Upon successful completion of the course you will have a comprehensive understanding of gas detection principles, sensor technology, types and applications and a firm grasp of wiring procedures, test functions and calibration processes. Successful participants will be given a course completion certificate that will be valid for 2 years.

Products: Controllers: SCC, DCC, QCC, FCS Transmitters: LPT, LPT-A, LPT-P, LPT-M, LPT-B

Who Should Attend? Independant or CETCI dealer affiliated technicians and contractors with electrical servicing equipment experience. Dealers welcome. All registrants must qualify and be approved.
